DED submits annually a cost allocation plan for review and approval by the USDOL. The cost allocation plan allocates charges consistently among the department's federal and non-federal programs. In FY11, DED applied for and was awarded the State Small Business Credit Initiative program from the US Treasury. As a result, there are charges that should be allocated to the SSBCI program for central administrative purposes. Currently there isn't a mechnism to transfer the funds from the SSBCI fund to the DED revolving fund.

This NDI is requested in order to restore the funding for certain Business and Community Services (BCS) staff back to GR which is currently funded from Community Development Block Grant (CDBG) federal funds. Over the past four years as GR has decreased, CDBG administration funds have been used for an increased number of BCS staff in order to maintain the level of services provided to Missouri constituents. Based on estimated revenues, DED has determined that the level of CDBG administrative funding will not be sustainable beginning in FY 2014 as expenditures will outpace the revenues.

To this end, it provides individualized customer service to businesses considering locating or expanding in the state, assists communities with key development activities, and develops export promotion opportunities for Missouri businesses to take products and services to key world markets. The Sales Team is organized by region (in-state and international) and industry specialization. The Sales Team works in partnership with the Research, Marketing, Finance, and Compliance Teams to achieve their common goals.

Section 536.310, HB 464 passed in 2011, allows the Missouri Small Business Regulatory Fairness Board (SBRFB) to receive funding to hire 1.5 FTE in support of the board and also expands the responsibilities assigned to staff. DED is requesting this new decision item to fund the salaries and expenses of the new staff. The SBRFB ensures that Missouri state agency rules and regulations do not create an unfair burden for small businesses. SBRFB, working with small business owners throughout Missouri, ensures that the voice of small business is considered when state rules and regulations are created. SBRFB works with state departments and agencies to identify rules and regulations that place an unfair burden on small business owners and recommends alternatives that benefit all parties.

This NDI is being requested in order to restore funding for the Sales and Finance Teams back to General Revenue. Over the past three Fiscal years, several BCS budget appropriations originally funded by GR have been fund switched to the Economic Development Advancement Fund (EDAF). Based on estimated revenues, DED has determined that the EDAF will not be sustainable beginning in FY2014 as the expenditures from EDAF outpace the revenues to the fund. In order to continue to provide the critical services provided by the Finance and Sales Teams, it is imperative that GR funding be restored for both Personal Service and Expense and Equipment. If this New Decision Item is not approved, it is critical the EDAF appropriation be maintained.

This NDI is being requested in order to restore funding for the Sales and Finance Teams back to General Revenue. Over the past three Fiscal years, several BCS budget appropriations originally funded by GR have been fund switched to the Economic Development Advancement Fund (EDAF). Based on estimated revenues, DED has determined that the EDAF will not be sustainable beginning in FY2014 as the expenditures from EDAF outpace the revenues to the fund. In order to continue to provide the critical services provided by the Finance and Sales Teams, it is imperative that GR funding be restored for both Personal Service and Expense and Equipment. If this New Decision Item is not approved, it is critical the EDAF appropriation be maintained.

Small Business Credit Initiative Section 7.050

Book 1, Pages 199-204

Description: The State Small Business Credit Initiative was created by the federal Small Business Jobs Act (2010). Under this program, Missouri plans to receive \$27 million to support small business loans and equity investment. MTC will administer \$17 million of the funds under the Missouri IDEA Seed and Venture Capital Funds, and DED will administer \$10 million under the Grow Missouri Loan Participation Fund. A key federal requirement of this funding is that Missouri must demonstrate a reasonable expectation that the program as a whole, will leverage 10 private dollars in financing for every dollar from the program. The program must also target companies with not more than 500 employees. Under the loan participation fund, borrowers may receive up to 10% of the project cost or \$75,000 (\$100,000 for MBE/WBE per new or retained job, not to exceed \$3 million at 2% interest (0% for MBE/WBE for 8 years. Under the IDEA Fund programs, financing in the form of equity or convertible debt is available to firms that belong to an MTC-targeted industry. Loans are also available for industrial expansion that results in significant capital investment and job creation in MTC-targeted industries.

Book 1, Page 317

Tax increment financing captures state economic activity, taxes generated as a result of planned redevelopment activities within a prescribed area and approved by the director or the Department of Economic Development and the Commissioner of the office of Administration. The net new taxes generated are captured in accordance with the law for approved projects and used to pay the debt service on bonds issued for eligible redevelopment costs. Those costs include public infrastructure necessary to generate reuse of the properties. The amount of the subsidy may be up to 50% of state withholding taxes or 50% of state general sales taxes (3%) generated by the TIF project to supplement the local TIF funding.

Current TIF Obligations Include:

Kansas City Midtown: infrastructure improvements and retail development at Mill Street;

St. Louis Convention Hotel: construction of a 1,083 room convention headquarters hotel complex;

Riverside L-385 Levee: infrastructure and levee improvements at 1600 acre site, city of Riverside;

Springfield Jordan Valley Park: redevelopment of exposition center in downtown Springfield;

Kansas City 1200 Main: new development for H&R Block Corporation headquarters;

St. Louis Cupples: redevelopment of abandoned buildings in downtown near Busch Stadium;

Excelsior Springs: Elms Hotel and supporting infrastructure (project is complete, closed, and final payment has been made);

The Mo Job Development Fund provides the funding for the Mo Customized Training Program, which receives \$50 million in training requests annually. The Customized Training Program is the most flexible and popular of Missouri's workforce training programs and is a critical tool in the state's economic development efforts to create and retain jobs for Missourians. While funding can support training for workers in new jobs, it is primarily used to upgrade the skills of existing workers at existing businesses, making it one of our primary tools to retain jobs at existing companies. This request would ensure funding at a level closer to current authorized spending amount to support businesses and workers. It also brings the funding amount available to its previous level which was \$13.8M in FY 2010.

Missouri Community College New Jobs Training Program - Section 7.130

Book 2, Page 77

Description: The Missouri Community College New Jobs Training Program is designed to help companies create new jobs by offsetting the high cost of start-ups or expansions. The training is financed through the sale of bonds based on the number of jobs created and their respective wage rates. The debt is then retired by diverting a portion of the employer's withholding tax on the newly created jobs. The program is administered by the community colleges in cooperation with the Department of Economic Development.

Jobs Retention Training Program - Section 7.135

Book 2, Page 84

Description: The Jobs Retention Training Program offers an incentive for the retention of existing jobs by providing education and training to existing industries. The program targets companies with plans to move outside the state to find skilled labor by providing assistance for workers to increase their skill level. The training is financed through the sale of bonds based on the number of jobs created and their respective wage rates. The debt is then retired by diverting a portion of the employer's withholding tax on the newly created jobs. DED must have this appropriation authority to disseminate money to the trustees to retire the bonds.

The Office of Public Counsel (OPC) is required by statute, Section 386.710, RSMo., to represent the interests of the public in proceedings before the Public Service Commission (PSC) and in the courts. At the current staffing level, OPC simply cannot fulfill its statutory obligations. At times, it is impossible to attend all the meetings and hearings that are scheduled by the PSC, much less adequately prepare and effectively participate. There are entire categories of cases in which the OPC no longer participates. The request will not solve the problem, but it will make a huge difference in OPC's ability to participate in cases that affect the public.

The Commission currently uses a cost production fuel model to run electric production costs and other purchase expense scenarios for electric utility case-related work. The information obtained in the model is used by the Commission to ensure the costs for electricity and ultimately the costs borne by ratepayers in the State are prudent and reasonable. The model currently used by the Commission is no longer supported by a contract and it is not clear how long the model will continue to work. This funding request is needed to procure a replacement product.
